

COMPLETE LISTING OF ALL CLAIMS EVER PRESENTED

Claims 1-27 (canceled).

28. (New) A protective body armour comprising a skin and a honeycomb lining thereto, wherein the honeycomb lining comprises cells bounded by walls projecting upward from the skin and the body armour is contoured into a cup-shape with the lining on the concave face of the skin, wherein the skin and honeycomb lining are formed of a material that is non-deformable, the skin and honeycomb lining are formed integrally with each other and the thickness of the skin is non-uniform over the surface of the protective body to form at least one fold line free from the walls of the honeycomb lining to enable the protective body armour to conform to the contour of a person's body.

29. (New) The protective body armour according to claim 1, wherein the protective body armour is injected moulded as an integral construction.

30. (New) The protective body armour according to claim 1, wherein the protective body armour is blow moulded as an integral construction.

31. (New) The protective body armour according to claim 1, wherein the protective body armour is sintered as an integral construction.

32. (New) The protective body armour according to claim 1, wherein the protective body armour is vacformed as an integral construction.

33. (New) The protective body armour according to claim 1, wherein the protective body armour is compression moulded as an integral construction.

34. (New) The protective body armour according to claim 1, wherein the body armour is formed of polypropylene.

35. (New) The protective body armour according to claim 1, wherein the body armour is formed of polycarbonate.

36. (New) The protective body armour according to claim 1, wherein the body armour is formed of Nylon.

37. (New) The protective body armour according to claim 1, wherein the body armour is formed of polyethylene.

38. (New) The protective body armour according to claim 1, wherein the body armour is formed of polyurethane.

39. (New) The protective body armour according to claim 1, wherein the body armour is formed of thermoplastic rubber.

40. (New) The protective body armour according to claim 1, wherein the honeycomb lining comprises hexagonal cells bounded by the walls.

41. (New) The protective body armour according to claim 31, wherein the cell walls extend from the skin in a common direction parallel with the central perpendicular to the skin.

42. (New) The protective body armour according to claim 32, wherein the body armour has a cut extending along a portion of a fold line from an outer edge of the body armour.

43. (New) The protective body armour according to claim 33, wherein the cut is tapered away from the outer edge.

44. (New) The protective body armour according to claim 1, wherein the size of the cells is non-uniform over the surface of the body armour.

45. (New) The protective body armour according to claim 1, wherein the body armour is elliptical in platform.

46. (New) The protective body armour to claim 1, wherein the body armour is coloured.

47. (New) The protective body armour according to claim 1, wherein the body armour is translucent.
